Southern Africa Waterways 2008 - 1st or 2nd Edition purchased after 1 July 2009						FREE

**NOTE 1:** Users with existing installations of TOPO & REC maps are requested to take specific note of the size of the new TOPO & REC map set ( ≈1,035 MB). This map set will not install in it's entirety on all devices and as a result, users may choose to rather install (upgrade to) *Southern Africa Streetmaps - TMC or Non-NT (device dependent)*, which has a much smaller file size. Users must note that, should they opt for this route and then later decide to upgrade back to TOPO & REC, this will be a chargeable upgrade (currently R 299.00 as per prices shown above). Users are therefore urged to ensure they make an informed decision prior to upgrading.

\*\*\* On-line purchase is **NOT** required if using the *Coupon Code Upgrade DVD* but on-line activation is required - only valid for UPGRADES costing R 349.00 inc VAT.

## New Map Purchases - Other African Regions
